## EDUCATION

### Rutgers University–New Brunswick

Aug 2024 – Expected May 2028

*B.S. Data Science & Economics; Minor in Computer Science*

**Coursework:** Econometrics, Intermediate Microeconomics, Intermediate Macroeconomics, Economic Data Analytics, Statistics I, Data Management for Data Science, Inference for Data Science, Linear Algebra, HR Management & Social Media

## EXPERIENCE

### Agoda

Bangkok, Thailand

*Commercial Operations & AI Automation Intern*

Jun – Aug 2026

- Built SQL checks to automate manual commercial reviews, finding inventory distribution gaps across partner platforms with market-eligibility and invoice rules, plus a Slack flow to approve opportunities and notify account managers.
- Gathered requirements through stakeholder interviews for a three-bot Slack support workflow (FAQs, internal research, Jira escalation); refined routing and human-review rules over four design iterations.
- Revised business rules after manager feedback exposed wrong tag interpretations; supported non-production testing (504 passing tests), wrote process documentation, and ran a weeklong handover.

### BuzzeBees

Bangkok, Thailand

*Data Scientist Intern*

Jun – Aug 2025

- Facilitated English-language meetings with an international AI client, coordinating with product and data-science teams to clarify dataset suitability, scope, and partner-approval requirements.
- Joined Facebook ad spend with Shopee/Lazada orders in SQL to track marketing KPIs (CTR, CPC, ROAS, ROI).
- Built an early revenue-prediction model to guide ad-boost budget decisions; handed off to a senior colleague.

### Consulting Firm (Financial Services Client)

Bangkok, Thailand

*System Implementation / Project Manager Assistant Intern*

Jul 2023

- Supported an ERP data migration (Microsoft Dynamics AX to Dynamics 365) of about 500,000 records by reviewing data-format differences and proposing script-based transformation rules.
- Helped present the sprint-based implementation roadmap to the client's GM and senior technical staff.

## LEADERSHIP & ENTREPRENEURSHIP

### Rutgers Road to Silicon Valley Pitch Competition

New Brunswick, NJ

*Top 20 Finalist – Dip, student ride-pooling startup concept (3-person team)*

Oct 2025

- Originated the pivot from a subleasing idea to Dip after questioning its supply/demand fit; designed how students join rides with drivers already commuting between campuses.
- Ran a student survey on commute problems and Uber/Lyft spending (36% paid \$11–\$20 per ride) to support a low-cost pricing strategy against ride-share competitors.
- Co-built a clickable Figma prototype and co-presented a 23-slide pitch covering market research, payment flow, safety rules, and a 12-month campus rollout plan.

**Rutgers Clubs:** Quant Finance Club, International Student Association, Chinese Student Association, Tennis, Pickleball

**AFS Intercultural Exchange:** represented Thailand as an exchange student in Pennsylvania (2022–23)

## PROJECTS

### Mini Portfolio Risk Monitor – Python, SQL

Sep – Dec 2025

- Merged stock prices and news sentiment in SQL to flag next-day drop risk with a logistic-regression model.

### Trading Strategy Research (DeepLOB) – Rutgers Quant Finance Club

Feb – May 2026

- Ran 95 experiments on short-term price prediction; backtests showed higher accuracy did not mean higher returns.

### News & Audio Briefing Automation – n8n, APIs, Telegram

Feb – Apr 2026

- Built a scheduled workflow that sends daily finance and tech news summaries with audio briefings.

### AI-Assisted Daily Planner – Canvas, Google Calendar, Slack

Sep 2026 – Present

- Tracks coursework, career goals, and tasks in one place, with Slack reminders and audio versions of readings.

### SAT Tutoring Prototype – 4-person team

Jan – Apr 2026

- Designed SAT practice, vocabulary, and daily-quiz flows from subject specialists' strategies.

### Rutgers Hackathon – Memory Games for Dementia

Oct 2024

- Co-built browser-based memory games with a simple interface for people living with dementia.

## SKILLS

**Business:** Requirements gathering, stakeholder interviews, process design, testing, documentation, market research, KPIs

**Tools:** Excel, SQL, Python, Jira, Slack, Databricks, Figma, Canva, Dynamics 365, Power Automate
